Chairperson Al Adams mentioned that since it is their first time requiring CEUs, they want to make it easier, so they are accepting all CEUs that were taken after the start of the Sprinkler Fitter program whether they were approved or not. He mentioned if you took CEUs after July 1, 2017, they will be accepted.

Chairperson Al Adams introduced Kemiko Tolon to further discuss the Continuing Education Units (CEUs). A. Partial Sprinkler Fitters

Chairperson Al Adams introduced guest speaker Jeff Halpert to discuss regarding annuals and five-year inspections. Jeff Halpert mentioned junior limited area sprinkler fitters' systems regarding the one head dumpster's

sprinklers that were required to have an annual and 5-year inspections. He mentioned that they put together a draft for the NFPA 25 and they want to add a definition for limited areas sprinkler systems that takes the definition out of 13 and brings it into 25 California addition. He mentioned that it would only inspect the sprinkler systems and limited area national of six sprinkler heads. Guest Jeff Halpert mentioned that they want to keep it as an inspection only.

Member Chip Lindley asked if they wanted to eliminate the inspections for the partial sprinkler fitters or adding inspections.

Guest Jeff Halpert mentioned that they want to clarify because a limited area could be considered a sprinkler system and it usually is a one head over a dumpster.

Member Chip Lindley mentioned that is an important thing to get inspected and wants to make sure it is not removed.

Member Jason Hudgins asked what about the current code doesn't satisfy the requirements that are in place. He mentioned that if there is no check bulb, then no inspections are required – the existing forms already work for these forms.

Member Peter Hulin asked if they would need to have another form for this type of inspections.

Guest Jeff Halpert said that they already have a form for it.

Chairperson Al Adams asked if this is becoming an issue that is being addressed because of the difference of opinions around the state.

Guest Jeff Halpert said that they want this done, so they can make this consistent.

Chairperson Al Adams said that they would need to look at the proposal and that consistency has been lacking. He mentioned that it is a larger problem that needs to be looked at for consistency.

Chairperson Al Adams asked Jeff Halpert what he was looking to get from the Committee Members.

Guest Jeff Halpert wants a recommendation from the Committee and to get his recommendations into NFPA 25.

Chairperson Al Adams mentioned that they would keep this topic on the agenda and send the information to the committee members for a possible vote and discuss it on the next meeting.
